

# LOCHINVAR IN KC

October 2010

## Lochinvar Water Heaters Are Now In Stock In Kansas City!

McCoy Sales now stocks four Lochinvar gas water heaters. We continue to stock water heater parts. *All are available through wholesale plumbing distributors only.*

### Three Series of Indirect Heaters

1. The **ARMOR** has the highest efficiency at 98%. It has a cascading sequencing control for linking and operating multiple ARMORS and PVC venting up to 100 feet.

2. The **SHIELD™** has many of the same advantages as the ARMOR with 96% efficiency, but it includes a self-contained storage tank. It is priced very competitively and leaves a small "footprint."

3. The **Copper-Fin®** is a low-cost, indirect-fire system and is 81% efficient.

### Storage Tanks

As needed with indirect models, we also stock jacketed, insulated, glass-lined storage tanks - 80 to 318 gallons.

### Tank-style Gas Heaters

4. The **Charger** is an inexpensive, high-efficiency commercial heater with a proven track record.

Call McCoy Sales for pricing and product details at **913-342-4904**. Our warehouse is two blocks West of 7th Street and four blocks South of Kansas Avenue in KCKS.
